Dear Valued Customer,

We invite you to see our latest high-technology exhibits and live demonstrations.

If complex programming is an issue, DMG MORI Technology Cycles can help with your shop floor programming. We will show how CELOS completely integrates your company with the machines, peripherals and links it to digitized productions.

With our fully integrated innovations, you will be on your way to intelligent production in the age of Industry 4.0.

Register today at events-usa.dmgmori.com to join us at DMG MORI Technology Days in Cincinnati.

We look forward to your visit!
