THE 3rd GENERATION DMU
even better and more powerful!
DMU 50

Compact universal machining centre of the 3rd generation for 5-axis simultaneous machining.

Ever since the DMU 50 was developed over 20 years ago, standards and requirements have been increasing. The 3rd generation of the DMU 50 meets the needs of 5-axis machining of the future and is characterised by innovative mechanical engineering technology. The larger working area and swivel range of the B-axis broaden the range of applications of the machine. Rapid traverses of 42 m/min | 1,654 ipm and a swivel speed of 30 rpm guarantee dynamic machining and up to 30% shorter cutting cycles. The extensive cooling measures are unique in this machine class and deliver maximum precision.

The latest control technology with ERGObine Control with a 21.5" multi-touch screen and CELOS guarantees optimum user-friendliness, precision and reliability. In the DMU 50, DMG MORI is providing the ideal, cost-effective entry into the world of 5-sided and even 5-axis simultaneous machining.
3: Belt fastener / automotive
4: Pump housing / fluid technology
5: Structural component / aerospace
Now even more precise with:

+ Linear scales in all axes
+ Directly driven ball screws
+ Cooled ball screw nuts, guideways and bearings
+ Two cooled table bearings (B and C-axes)
+ Cooled motor spindle

The best DMU 50

+ 78% larger working area
+ 40% faster rapid traverses, 42 m/min | 1,654 ipm as standard
+ 28% larger swivel range, swivel range of −35°/+110°
+ speedMASTER spindles rated at up to 20,000 rpm
+ Tool magazines with up to 120 positions
DMU 50

Highest accuracy thanks to direct drives and the integrated cooling concept.

With its low centre of mass and stable design, the one-piece machine bed provides improved static and dynamic stability. In combination with directly driven ball screws, linear scales and extensive cooling, it delivers a level of precision unrivalled in this machine class.
Innovative technology and top-class options for every application.

The DMU 50’s new tool magazine with 30, 60 or 120 positions and a rapid double gripper make it possible to replenish the tools during machining. This, combined with short chip-to-chip times, saves time throughout the production process. Additionally, as the tools are stored outside the working area they cannot be contaminated by chips. With optional, high-performance speedMASTER motor spindles rated at up to 20,000 rpm or 200 Nm | 147.5 ft lbs, the machine has enough power to handle difficult materials and challenging applications.
1: Tool magazine for 30, 60 or 120 positions
2: Set-up station for loading the magazine quickly and easily during the machining process
3: Powerful spindles:
   - 15,000 rpm / 21 kW / 28.2 hp / 111 Nm / 81.9 ft lbs speedMASTER spindle SK40 / HSK-A63
   - 15,000 rpm / 46 kW / 61.7 hp / 200 Nm / 147.5 ft lbs speedMASTER spindle SK40 / HSK-A63 (optional)
   - 20,000 rpm / 35 kW / 46.9 hp / 130 Nm / 95.9 ft lbs speedMASTER spindle SK40 / HSK-A63 (optional)

Technical Data

ERGOline CONTROL WITH 21.5” MULTI-TOUCH-SCREEN AND SIEMENS.

Simple
User-friendly machine operation for all new high-tech machines from DMG MORI.

Continuous
Consistent administration, documentation and visualisation of order, process and machine data.

Compatible
+ Compatible with PPS and ERP systems.
+ Can be networked with CAD/CAM products.
+ Open to trendsetting CELOS APPs extensions.

APP MENU
Like on a smart phone, the operator has direct access to all available applications through the APP MENU.

Simplified machine operation. The holistic integration of machines within a manufacturing organisation.

SMARTkey
Personalised user authorisation: Individually adapted access privileges to the control system and the machine.
DMU 50

Optimal user convenience.

CELOS features a standard user interface for all new high-tech machines from DMG MORI. CELOS APPs enable the consistent administration, documentation and visualisation of order, process and machine data. They also simplify, standardise and automate the operation of the machine. 26 standard apps help the machine operator prepare, optimise and systematically process production jobs.

High-end CNCs for safe processes and maximum precision.

SIEMENS 840D SOLUTIONLINE
+ SINUMERIK Operate
+ 3D simulation
+ Processing from the hard drive
+ Quick editing of large programs
+ Simple, graphically supported set-up
+ Comprehensive tool management

Advantages
+ Easy interactive programming
+ Programming with no additional documentation
+ Wide range of canned cycles
+ Safety thanks to pre-production simulations
+ Sophisticated tool handling

HEIDENHAIN TNC 640
+ Shop floor or DIN-ISO programming
+ 3D workpiece simulation
+ Graphical programming
+ Coordinate transformation
+ Rapid program creation with visual programming

Advantages
+ Familiar and proven HEIDENHAIN user interface
+ For rapid programming
+ Graphical programming support
+ Convenient, thanks to the comprehensive selection of canned cycles

FANUC MAPPS IVS
+ FANUC based
+ User memory with large capacity of 6 GB as standard
+ Equipped with simple and easy-to-follow conversational programming function
+ Quick access to required information by manual data search function
+ Two multi-touch panels

Advantages
+ 3D machining simulation for easy geometry checking
+ 4-window display for checking required machine information at the same time
+ Improved set-ups by displaying required machine information according to the operation
DMU 50

Power Diagrams

speedMASTER-spindle SK40/HSK-A63
15,000 rpm / 21 kW | 28.2 hp | 111 Nm | 81.9 ft lbs

speedMASTER-spindle SK40/HSK-A63*
15,000 rpm / 44 kW | 61.7 hp | 200 Nm | 747.5 ft lbs

speedMASTER-spindle SK40/HSK-A63*
20,000 rpm / 35 kW | 46.9 hp | 130 Nm | 95.9 ft lbs

</thead>
<tbody>
<tr>
<td>Travels X/Y/Z</td>
<td>mm / in</td>
</tr>
</tbody>
</table>

### Main drive (standard)

| Speed range | rpm | 20 – 15,000 |
| Drive power (40/100 % DC) | kW / hp | 21 / 16 | 28.2 / 21.5 |
| Torque (40/100 % DC) | Nm / ft lbs | 111 / 85 | 81.9 / 62.7 |

### Main drive (optional)

| Speed range | rpm | 20 – 15,000 |
| Drive power (40/100 % DC) | kW / hp | 46 / 30 | 61.7 / 40.2 |
| Torque (40/100 % DC) | Nm / ft lbs | 200 / 130 | 147.5 / 95.9 |

### Main drive (optional)

| Speed range | rpm | 20 – 20,000 |
| Drive power (40/100 % DC) | kW / hp | 35 / 25 | 46.9 / 32.5 |
| Torque (40/100 % DC) | Nm / ft lbs | 130 / 86 | 95.9 / 63.4 |

### Feed

| Rapid traverse X/Y/Z | m/min / ipm | 42 / 1,654 |
| Maximum thrust force X/Y/Z | kN / lb | 4.8 / 1,079 |

### Swivelling rotary table

| Clamping area | mm / in | ø 630 × 500 | ø 24.8 × 19.7 |
| B-/C-axis speed | rpm | 30* |
| Maximum load | kg / lbs | 300 / 660 |
| Swivel range | Degrees | −35/+110 |

### Tool magazine with double gripper

| Storage positions | Number | 30 / 60** / 120** |
| Maximum tool length | mm / in | 300 / 11.8 |
| Maximum tool diameter | mm / in | 80 / 3.1 / 5.1 |
| Tool weight max. | kg / lbs | 81 / 17.6 |

### Machine weight / connected values

| Weight | kg / lbs | 7,480 / 16,490 |
| Power | kW / hp | 28 / 37.5 |
| Maximum current rating | A | 40 |

### Options

- Laser tool measurement
- Tool magazine 60 / 120 pockets
- Oil mist separator
- Coolant / air blast switch
- Through-spindle air blast
- Coolant gun
- Chip conveyor
- Internal coolant supply up to 40 bar

### Control

- ERGOline Control with a 21.5" multi-touch screen, CELOS and SIEMENS 840D solution line
- ERGOline Control with a 21.5" multi-touch screen, CELOS and HEIDENHAIN TNC 640
- ERGOline Control with a 21.5" multi-touch screen, CELOS and FANUC MAPPS IVS ***
- ERGOline Control with a 19.5" screen and HEIDENHAIN TNC 640

---

* For HEIDENHAIN / SIEMENS control ** Optional *** Limited option portfolio available
Customer First – Our service promise!

“We have good news for you: Our service and spare parts prices have been completely revised. With our service commitments, we want to meet your high demands with the highest service quality.”

Please contact us – your sales and service team is at your disposal!

Top quality at fair prices. It’s a promise!

Best Price Guarantee for Original Spare Parts. Should you get a spare part offered by us at least 20% cheaper elsewhere, we will refund the price difference up to 100%.*

Spindle service at best prices. The highest level of competence from the manufacturer at new and attractive prices – DMG MORI spindle service!

Up to 50% lower service costs. New Flat Call-Out Rate – without travel expenses or any additional costs!

Our protective shield for your productivity. Reduced operating costs, highest machine availability and maximum precision – DMG MORI Service Plus!

* All information and price advantages for Customer First are available at: customer-first.dmgmori.com
